## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 6 is rejected under 35 U.S.C. 102(b) as being anticipated by either Yagi et al., or Sezaki et al.

Yagi et al., discloses a torque sensor with features of the claimed invention including a shaft (element 14) provided with magnetostrictive film (such as element 24, col. 4, line 5), a exciting coil, a detection coil (see for example, claim 15), yoke portion (element 58) provided around the coils and a magnetic shielding section covering the sensor (the enclosure member, see claim 1).

Sezaki discloses a steering detecting torque sensor with features of the claimed invention including a shaft with magnetostrictive film, an exciting coil, a detecting coil, a yoke and a magnetic shielding (see claim 1).

3. Claims 1-5 are allowed over the prior art of the record for the provision of a magnetic shield, which is formed of magnetic material.

*Response to Amendment*

3. Applicant's amendment and arguments filed 4/5/05 have been fully considered the rejection of the claims 1-5 are withdrawn, the argument regarding new claim 6 is however moot in view of the new ground of rejection.

4. THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for response to this final action is set to expire THREE MONTHS from the date of this action. In the event a first response is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event will the statutory period for response expire later than SIX MONTHS from the date of this final action.
